

Robert Mellors Primary Academy Swimming Data 2019-20

Context: Children currently partake in 20 weeks of swimming when they are in Year 4. Data is collected in Year 4 on the children that met the 25 m standard and on who could perform safe self-rescue in a number of scenarios. The data below is therefore based on parental information on the children's swimming ability as they get to the end of Year 6.

Number of children in cohort= 29	Number of children who can swim confidently and competently over a distance of 25 m.	Number of children who can perform safe self-rescue in different water based situations.	Number of children who had no swimming experience but who can now swim 5 or 10 m.
	6	14	16

- For all of the children not reaching the required distance of 25m, parents received a letter informing them or their child's next steps and they all received 3 free family passes to the local swimming pool.
