

## NUMBER CHALLENGE

You will need:

Playing cards (or make your own cards to 10)

+ and – symbols

Objects

Instructions:

Child to pick two playing cards / number cards. For addition, count the total number of objects. For subtraction, talk about taking away the smallest number from the largest.

Here is an example:

What is the  
answer?

Can your child write the number sentences that they have worked out?

$$2+8=10$$

$$9-3=6$$
