

These are just suggestions of some of the creative things you can get up to in your last learning sessions each day. You can choose any of these or do your own ideas. The point is that you can just get creative!

Make a word search and ask a family member to complete it.	If you could redesign our playground what would it look like?	Write a letter to a friend or family member. Maybe you could write a letter to a friend you know is back at school and post it to us.	Design your own theme park. What would it be called? What rides would it have? Draw a map of the park.	If $a = 1$ , $b = 2$ , $c = 3$ etc what would the letters in your name add up to? What about others in your house?
How many numbers can you find in your house? Can you make different word problems for others to solve?	Design your own board game. Write down the rules and teach someone in your house how to play.	Hide an object in your house and write clues on how to find it.	Do a good deed for someone at home without waiting to be asked.	One minute challenges: What can you do in one minute. Use a graph or table to keep track.
